Proceedings of the meeting of the Municipal Council dated 7-12-1946

-

Subject 4 Letter No L 4094/M1 39-46-18 dated 18-9-1946 from the Revenue Secretary that Government regret that the request of the Municipality to make over the Dharmambhudi Tank bed to the Municipal control cannot be granted

---

Mr H C Suryanaranayana Rao observed that it was not just for the Government to turn down their proposal The Tank bed was expected to be kept clean by the Municipality and but it would not be given over to their management Further, the water rushing from the tank through the big drain running in Akkipet and other parts of the City was causing great danger to people and the Council had resolved that the waste weir of the tank should be properly regulated to control flow of water in the drain But nothing had been done in this direction by the concerned authorities If the control had vested in the Municipality they would have seen to the proper regulation of the waste weir

Mr M K Narayana Iyengar observed that even the question of keeping the tank bed clean was a costly matter and when the control vested in some other department, that department should be responsible for keeping the area clean Since this work was left to them it was but right they should have control over the tank bed

Mr M V Veerappa observed that since they were responsible for the health of the City they should see that the place is clean whether the area was in their control or not

Mr Ramalal Thiwari supporting Mr H C Suryanarayana Rao said that this question had already been decided in 1934 and that the Council had resolved to take control then alone and it may be given effect to

Mr H C Suryanarayana Rao then moved that the previous resolution be re-iterated and the Government be informed that since it was their duty to maintain the tank bed clean, the control may be transferred to them in the interest of public health
